

Treasure Island

Elevator Pitch

When young Jim Hawkins discovers a dead pirate's treasure map hidden inside a sea-chest, he embarks on a voyage to a remote island that promises unimaginable wealth—but the ship's charming, one-legged cook Long John Silver is not what he seems. Surrounded by ruthless buccaneers who will murder anyone standing between them and Captain Flint's buried gold, Jim must rely on courage he never knew he possessed to outmaneuver seasoned killers at every turn. With the lives of his friends hanging in the balance and no guarantee that even his most trusted allies can be believed, Jim faces a desperate choice between safety and loyalty—and the wrong decision means none of them leave the island alive.
